

To Whom It May Concern:

The undersigned ("Customer") has selected Gafachi, Inc (Gafachi) to act as the Responsible Organization "RESP ORG" for the toll free numbers identified below. The undersigned further designates Gafachi to act as the agent, for the purpose of transferring RESP ORG functions to Gafachi. These designations supersede all prior RESP ORG designations pertaining to these toll free service numbers. This form is only for use in connection with a RESP ORG change and is not itself intended nor shall it be construed as authorization to disconnect any toll-free service.

Toll free numbers are attached to sub-accounts. Please specify which sub-account you would like these toll free number/s added to.

Toll free number/s must be attached to a valid credit card when adding them to your Gafachi account. Please specify the last four digits of the credit card which you would like these toll free numbers billed to. Please be sure to verify that this credit card is listed on the account that the toll free number/s are being added to.

By default, Gafachi Toll Free Numbers are configured for US48, Alaska, and Hawaii only. Area of Service can be expanded to include Canada, Puerto Rico, US Virgin Islands, Guam and Saipan (please visit www.gafachi.com for rates). Please circle EAOS below if you would like your toll free number/s to be configured for extended areas of service.

Toll Free Configuration Information

To use your Toll Free Number(s), you must either configure your VoIP hardware/software to register to the Gafachi Network or setup a Manual Address. (You can setup a manual address by logging in to your Gafachi account and clicking on "Setup manual address"). When a call to your Toll Free number comes into the Gafachi Network, the call will be routed to the IP address from which you are registered, if you have a valid SIP registration. If you do NOT have a valid SIP registration, the Gafachi Network will route the call to your Manual Address, if one is configured. If a Manual Address is NOT configured, the call will fail.
